Issue 3 - 19th of April 2018

Gulf Region Education Assistive Technology Conference 2018

Just a few days before GREAT 2018 kicks off!

All are waiting for GREAT 2018 to start, as it is the most important event on Assistive Technology and Information Technology and Communication! We have all worked hard to prepare and deliver one of the most exciting platform for professionals, experts, special educators, researchers, inventors, people and companies altogether to interact and exchange the most updated information and practices related to Assistive Technologies! Three days out of which two will be filled with workshops and open debates, sessions at Innovation Theater, moderated by top specialists and innovators from around the world!

Prepare Yourself to Learn from The Best Speakers

Aren't we all fascinated by television? But there's always more than just a screen and a few people sharing experiences. Dr. Sameer Semreen – Al Jazeera Channel, Qatar, is leading the second module list of speakers on the 24th of April. Nadine Zeinoun - Mada Assistive Technology Center, Qatar, speaks about the best practices in supporting students with learning disability, and Prof. Panagiotis Bamidis, Aristotle University of Thessaloniki, Greece, will take us into the universe of tools and technologies in training the elderly healthcare providers. Ranjana Ranganathan will tell the audience a story about success within the autism spectrum in Qatar. So, lots of fascinating speakers lined up for GREAT 2018 audience! More to come in our next newsletter issues!

About GREAT 2018 Zones

The Conference will feature 4 exhibition zones meant to publicly show the latest developments in assistive technology, software, products and innovations dedicated to PwDs. The Innovation Zone will display the upcoming Arabic Assistive Technology solutions that are developed in collaboration with Mada. It is a unique space that let visitors to be introduced to Assistive Technologies breakthroughs which will soon be on the market. All featured solutions have been developed as part of the Mada Innovation Program, which aims to grow the market for Arabic Assistive Technologies and widen the range of Arabic solutions available for People with Disabilities.

The Innovation Theater will feature selected innovative Assistive Technology solutions and concepts. It will be a stage which the solutions' innovations and key features will be presented on. The area will be a platform for open discussions led by inspiring innovators & entrepreneurs, to develop solutions adapted to the needs of Persons with Disabilities in Qatar and the entire region.

SEE YOU AT GREAT 2018!
