The Challenge

From Digital Perspective

People with disabilities continue to face difficulties in accessing digital platforms because they are designed in an inaccessible manner.

Noora
Autistic child

Why does ICT accessibility remain unaddressed?

- ☐ Digital Accessibility perceived as “optional” or not a priority by many individuals.
- ☐ Lack of Awareness amongst the public on the benefits it brings to people with disability.
- ☐ The absence of binding policies or objectives related to ICT accessibility.

Current Policy initiatives related to ICT Accessibility

- ❑ Qatar National ICT Accessibility Policy
- ❑ Government website and e-services framework by MOTC.
- ❑ Mobile Apps framework by MOTC.

The importance of incorporating Digital Accessibility in organizational policies?

- ❑ To achieve the objectives outlined in The UN Convention on the Rights of Persons with Disabilities (UNCRPD).

- ❑ To promote the three pillars of sustainable development - economic development, social integration and environmental protection.

An aerial photograph of a large crowd of people gathered on a paved area, possibly a street or plaza. The people are seen from above, appearing as small, colorful dots. The text "ACCESSIBILITY AND INCLUSION FOR ALL" is overlaid in the center in a bold, yellow, sans-serif font.

ACCESSIBILITY AND INCLUSION FOR ALL

Policy Development Stages

الشمول الرقمي
Digital Inclusion

Stage 1 Initiation

- ☐ Identifying the issue.
- ☐ Revising & Analyzing existing policies (Gaps / Areas for improvement).
- ☐ Engaging & Consulting relevant Stakeholders.
- ☐ Engaging & Consulting Persons with disabilities and the Elderly.

الشمول الرقمي
Digital Inclusion

Stage 2

Formulation

- ☐ Drafting the policy based on legislative requirements and best practice guidelines.
- ☐ Adding and revising key definitions:
 - ✓ **ICT Accessibility**
 - ✓ **Assistive Technology**
 - ✓ **Universal Design**
- ☐ Legal and regulatory review.
- ☐ Final approval.

ICT Accessibility

“A measure of the extent to which a product or service can be used by a person with a disability as effectively as it can be used by a person without that disability for purposes of accessing or using ICT related products, content or services.”

الشمول الرقمي
Digital Inclusion

#greattalks2020

Assistive Technology

“Any information and Communications technology, product, device, equipment and related service used to maintain, increase or improve the functional capabilities of individuals with special needs or disabilities”.

الشمول الرقمي
Digital Inclusion

#greattalks2020
great.mada.org.qa

Universal Design

“The design of products, environments, programmes and services to be usable by all people to the greatest extent possible, without the need for adaptation or specialized design.”

الشمول الرقمي
Digital Inclusion

#greattalks2020
great.mada.org.qa

Stage 3

Monitoring & Evaluation

- ☐ Conduct Periodic reviews and assessments.
- ☐ Conduct Quarterly performance reports to report the progress of implementation.
- ☐ Receive feedback from people with disability.

Key Policy Areas

الشمول الرقمي
Digital Inclusion

#greattalks2020
great.mada.org.qa

Accessible Web & Mobile Applications

- ☐ Address the barriers to accessible web and mobile applications.
- ☐ Raise awareness amongst web developers on the importance of accessible web and mobile applications.
- ☐ Ensure the application of international ICT accessibility standards when designing web and mobile apps.

الشمول الرقمي
Digital Inclusion

#greattalks2020

Accessible Media & broadcasting services

- ❑ Address the barriers to fully accessible Media & broadcasting services.
- ❑ Raise awareness amongst service providers on the importance of accessible mobile communications.
- ❑ Encourage the integration of accessibility features into media and broadcasting services.

Accessible Telecommunication

- ☐ Ensure availability of accessible handsets and mobile devices with accessibility features.
- ☐ Ensure provision of accessible emergency services for persons with disabilities.
- ☐ Promote affordability of accessible mobile devices and services.

Accessible Procurement

- ☐ Ensure that any new software or hardware deployed will meet accessibility standards to ensure accessibility and usability by PWDs.
- ☐ Raise awareness within the organization on the importance of accessible procurement.
- ☐ Encourage industry competition to design, develop and provide more accessible and usable ICT solutions and services.
